TEXAS ASSESSMENT OF KNOWLEDGE AND SKILLS

The TAKS indicator is the percent of students who scored high enough to meet the standard to pass the test. This is calculated as the number of students who met the TAKS student passing standard divided by the number tested. Results for the English version of the TAKS (grades 3-11) and the Spanish version (grades 3-6) are summed across grades for each subject. Results for each subject tested are evaluated separately to determine ratings.

Who is evaluated for TAKS: Districts and campuses that test students on any TAKS subject:

- Reading/ELA – Reading is tested in grades 3-9; English language arts (ELA) is tested in grades 10 & 11. Note that this is a combined indicator. It includes all students tested on and passing either the TAKS reading test or the TAKS English language arts test. The first two administrations of grade 3 and grade 5 TAKS reading results are included.
- Writing – Writing is tested in grades 4 & 7.
- Social Studies – Social Studies is tested in grades 8, 10, & 11.
- Mathematics – Mathematics is tested in grades 3, 4, 5, 6, 7, 8, 9, 10, & 11. The first two administrations of grade 5 TAKS mathematics results are included.
- Science – Science is tested in grades 5, 8, 10, & 11.

Standard: The Academically Acceptable standard varies by subject, while the Recognized and Exemplary standards are the same for all subjects:

- Exemplary – For every subject, at least 90% of the tested students pass the test.
- Recognized – For every subject, at least 75% of the tested students pass the test.
- Academically Acceptable – Varies by subject:
 - Reading / ELA - At least 70% of the tested students pass the test.
 - Writing – At least 70% of the tested students pass the test.
 - Social Studies – At least 70% of the tested students pass the test.
 - Mathematics – At least 55% of the tested students pass the test.
 - Science – At least 50% of the tested students pass the test.
